The Board of Management (BOM) is committed to ensuring the Health and Safety and Welfare of the employees, pupils and all others involved in the running of the school. This inspection/safety audit will be carried out more frequently if requested by either staff or the BOM. All records of accidents or ill health will be monitored in order to ensure that any safety measures required can be put in place, wherever possible, to minimise the recurrence of such accidents and ill health.

Critical incident Policy has been formulated and ratified by the Board of Management.

Should accidents to children in school be reported to the Health and Safety Authority?

The following types of accidents to school pupils must be reported to the Health and Safety Authority, by the school either online at www.hsa.ie or on the Incident Report Form (IR1).

- A death or injury that requires treatment by a registered medical practitioner, which does not occur while a person is at work, but is related to either a work activity or their place of work. This applies to pupils in certain circumstances.
- If the pupil is injured as a result of work-related activity and requires medical treatment by a registered practitioner, this is reportable to the Health & Safety Authority.
- Example 1: If a pupil is seriously injured when using materials during class, and requires treatment by a registered medical practitioner, this is reportable. However, if a pupil trips in the school yard this is not reportable.
- Example 2: If a student trips during PE class and requires treatment by a registered medical practitioner, this is reportable. Where students are taken on school trips, they are considered to be a normal part of the work activities. Therefore, if a pupil is injured during the school trip and requires medical treatment this too is reportable. The school must keep records of all accidents which occur for a period of 10 years. If a pupil is seriously injured this should be reported to the Insurance company.
